NO. 125

BLOODY RIOT AT COLON

Six Hundred Laborers Fight Rather Than Land Long Without Food Battle With Police and Many are Clubbed Into Insensibility

Colon, Oct. 2.—Six hundred and fifty laborers from Martinique, brought here Friday on the French steamer Versailles under contract work on the canal, refused to disembark or to submit to vaccination, which is imperative under the American sanitary regulations. They clamored to be taken back to Martinique, asserting that they had been misinformed as to conditions here before they embarked, and that later they learned these conditions were intolerable and deadly.

The young men, however, five hundred of whom were with difficulty persuaded to land, were sent to points along the line of the canal. One hundred and fifty remained on board and declined to leave the ship under any consideration. These were forcibly ejected from the vessel this afternoon by the Panamanian and canal zone policemen, but not until nearly every one of them had been clubbed and several were bleeding from nasty wounds. All of yesterday and last night the Versailles was guarded by Panamanian policemen.

The captain of the Versailles, who all through the trouble displayed an extraordinary amount of patience, told the men that he was ready to take them back to Martinique, all those who were able to pay their passage, but the men argued that the French government would be willing to reimburse the steamship company, and they themselves were penniless.

Before noon, at the instance of the agent of the company and French consul, a squad of twelve policemen went on board the vessel and told the men that force would be used if they persisted in their refusal to disembark. Seeing the police were armed with bayonets and guns the men again bared their breasts and said they preferred death rather than to be taken ashore. Governor Melander, Mayor Aldron, chief of police and others argued with the men, but again without effect.

Ten additional policemen arrived at the wharf, but the governor wishing to avoid bloodshed and considering the police force insufficient, telegraphed to President Amador, asking permission to use the canal zone police, to which the president consented. Meanwhile twelve policemen from the zone had arrived at the dock and were being held in readiness.

At 2 o'clock the laborers were informed that they would be given two hours to reconsider their decision, and at 4 o'clock three of them consented to disembark, others still holding out. Then the Panamanian police, armed with clubs, approached the laborers, and on their refusing to quit the ship began to club them right and left. The zone police a few minutes later assisted in clubbing, but with better judgment and less indiscriminately. About fifty of the laborers leaped into the sea, but all of the men were able to swim. The captain, however, lowered a boat and picked them up. Nearly every man had received blows and several of them were bleeding from ugly wounds.

Seeing that resistance was useless, the men yielded, came ashore and began to eat the food that had been placed on the dock in sight of them for several hours. Many of them had not eaten since Saturday. At 5 o'clock all the laborers, who were in a pitiable condition, were placed on board a train which left for Corozal, where they will be put to work.

NEW ARIZONA POSTMASTER.

(Special to Review.)
Washington, Oct. 2.—H. John W. Standford has been appointed postmaster at Taylor, vice James J. Shumway, resigned.

ST. PAUL JOB PRINTERS ARE OUT ON STRIKE.

St. Paul, Oct. 2.—About 200 job printers here are on strike today because employers refused to grant the eight-hour day.

SULTAN OF TURKEY WILL NOT YIELD.

Constantinople, Oct. 2.—The Porte persists in its unyielding attitude regarding the financial control of Macedonia.

Best rooms in the city at the Royal.

TRAIN ON GREAT NORTHERN IS HELD UP

Seattle, Wash., Oct. 2.—The east bound Great Northern train was held up tonight six miles out of Ballard. Fifty shots were exchanged, and the express car wrecked by dynamite. The two explosions were heard for a distance of ten miles. Bailard is a station on the Great Northern near the eastern boundary of the state. A report that has just reached the city, and which has not been denied, states that the robbers placed railroad torpedoes on the track, and at the signal the engineer slowed down and the robbers boarded the express car. They cut loose the engine and car and proceeded up the track for a distance of two miles and the engineer was ordered to stop. When the robbers attempted to enter the express car they were met by a fusillade of shots, which were returned, and the car was completely riddled. The robbers escaped after forcing an entrance to the car and securing the valuable packages in the through safe. A posse has gone in pursuit.

Officials of the express companies make the statement that their loss is small, but refuse to divulge the exact amount. The scene of the hold up tonight is in the same locality where the hold up occurred in 1901.

REVIEW WILL REPRESENT ASSOCIATED PRESS

Staff Correspondent to be Detailed From This Paper to Report Trip of Congressional Party Through Arizona

The Bisbee Daily Review has been selected by Melville E. Stone, General Manager of the Associated Press, to detail a staff correspondent to cover the trip of the congressional party, headed by Uncle Joe Cannon, who are coming to Arizona this month to see for themselves the resources and population of our Territory. The instructions to the Review, which is the oldest member of the Associated Press in Cochise county, is to detail a correspondent to make the trip through Arizona with the party, and to meet them at El Paso. The telegram from the General Manager of the Associated Press to the Review last night was as follows:

"New York, N. Y., Oct. 2.
"W. B. Kelly, Review, Bisbee, Arizona.
"Please detail a man from your office to join Cannon's party at El Paso. You will be notified of exact date later. Wire me representative's name."

"MELVILLE E. STONE,
"Gen. Mgr. Associated Press."
The Review feels this assignment of the General Manager of the Associated Press to be a compliment to this paper at the hands of the greatest newspaper man in the United States. The Review will take pleasure in assigning one of its staff correspondents as the official reporter for the Associated Press on this congressional tour through Arizona, and he will send daily to every newspaper in the United States, through the distributing centers at San Francisco, New York, Chicago and Denver, the story of the journey through Arizona of this distinguished body of public men. Arizona's claims for single statehood will be given greater prominence in this manner than in any other way, and a Review correspondent will furnish the account. The first stop of the party will be at Clifton, and the first night will be spent at Morenci, in Graham county. Through Graham, Cochise, Pima, Maricopa and Coconino, the Review correspondent will be with the party. In addition to the regular Associated Press account, the Review correspondent will furnish this paper exclusive stories about the trip, expressed opinions of the members of the party, and a special story of each day.

COPPER CITY ELECTION CORNER STONE IS LAID

Douglas Has Three Franchise Propositions to Swallow Impressive Ceremony of Masonic Fraternity

(Special to Review.)
Douglas, Oct. 2.—Tonight practically ended the gas franchise campaign in this city, and the indications are that the largest vote in the history of Douglas will be cast tomorrow. The official ballots have been printed, and the citizens of Douglas are given the opportunity of voting for three separate and distinct franchises.

The election tomorrow will decide the question of a street railway franchise for the Douglas Street Railway, a gas franchise for F. S. Douglas, H. B. Callisher et al., and a gas franchise for Titcomb et al.

The situation here tonight, after a careful summing up, shows that in all probability all three franchises will carry. The promoter of the Titcomb franchise has stated that in the event two franchises are granted for the gas privilege, he will not put in his plant. In the event of the people of Douglas voting the franchise, Mr. Titcomb, who is a resident of Nogales, stands to lose two thousand dollars forfeit, which is at present in the city treasury.

The Douglas-Callisher forces are confident that their franchise proposition will carry, and state that they mean business, and will prove it by commencing work on a gas plant within sixty days after the election. In any event, the people of Douglas are in a fair way to secure a gas plant, and probably pick up \$2,000 as a side bet.

27 MEN LOST.

Washington, Oct. 2.—In a cablegram given out at the war department today the governor general of the Philippines says, in addition to the other damage wrought by the disastrous storm that swept those islands Sept. 26th, twenty-seven men perished on the coast guard cutter Leyte.

PAT CROWE IN TOILS.

Butte, Mont., The police have just arrested a man whom Chief of Police Mulholland declares is Pat Crowe, the alleged kidnaper of the son of Omaha, the millionaire pecker of Omaha. Crowe has relatives in Butte.

For Joint Statehood.—The Clifton Copper Era announces the arrival there of Neri Osborn, one of the most prominent citizens of the Salt River valley, in the interest of anti-joint statehood. He has traveled extensively over the territory of late, and finds the sentiment of the people generally solid against the issue. He left petitions here which will be signed and forwarded as rapidly as possible. Mr. Osborn came to Arizona in 1864, and has resided here continuously since then, and can therefore be truthfully referred to as a pioneer.

FATAL COUGH ENDS ALL

Copper Queen Employee Expires on Main Street WAS AN OLD TIMER Carried Into Copper Queen Pharmacy and Dies in Twenty Minutes

Mr. Frank Cory suddenly expired last evening in Dr. Bridges' office at the Copper Queen Dispensary, from a severe hemorrhage of the lungs.

A few moments previous he had rushed into the reading room of the Library from the alley in the rear, and asked Mr. J. J. Scott to please call a doctor, as he was seriously ill. Mr. Scott lost no time in picking Mr. Cory up and carrying him into the doctor's office adjoining the Library, but the man was apparently unconscious then from the loss of blood, and efforts to stop the hemorrhage failed. Mr. Hunter, the druggist, who was present when the body was brought in, immediately called Dr. Hagan, who was in the rear of the office attending another patient at the time. The doctor hurried into the room, and finding the patient on the lounge lost no time in administering amyl nitrite, which appeared to bring some relief. The doctor applied ice, but the man was seized with a severe fit of coughing, which made it impossible to retain the ice in his mouth. He was all the time bleeding quite freely. The doctor next administered morphine-atropine, and as a last resort nitro glycerine, but the patient was so far gone that he never rallied and expired in twenty minutes, life being extinct at 7:45.

Judge Murphy and Deputy Sheriff Doyle were immediately summoned and proceeded to examine the remains. On the undershirt of the deceased was found the name of F. Cory. This was the first clue to his identity. In the pockets of the deceased was \$69.65, and after removing the body to Hennessey's undertaking parlors, an additional \$40 was found sewed in the trousers. There was also a pair of goldrimmed eye-glasses found which bore the stamp of a firm in the Philippine Islands. Coroner Murphy set the time of the inquest for tomorrow evening at 7 o'clock. The deceased was an employee of the grocery department at the Copper Queen store.

The identity of the deceased was later established as Frank Cory, and he has been employed in the grocery department of the Copper Queen store since last February. Mr. Cory last night over the phone stated that he had known Mr. Cory for twenty-one years; in fact, he was one of the first persons he became acquainted with on his arrival in Bisbee; that he was a gentleman who was highly educated, and one that had traveled extensively, was sober and industrious, and a man of very steady habits.

Previous to coming to Bisbee the last time he had been employed in the quartermaster's department in the Philippine Islands, and he had just resigned his position at the store yesterday intending to leave for Panama today to take a position with the government, thinking in all probability the chance would prove beneficial to him, being in the last stages of consumption, and having a large cavity in the left lung. It is expected an investigation of the man's effects will give the authorities some clue as to his relatives, so that they can be communicated with in reference to the disposition of the remains today.

JACK M'GREGOR RETURNS.

Was an Attendant on N. Y. Life Investigation Hearing While Absent.

Mr. Jack McGregor, special representative of New York Life Insurance Co., has returned after an absence of three months spent in the East and Canada. Mr. McGregor reports having had a delightful time. He is the last one of the crowd of Elks that left here on the Elks' special for Buffalo last July.

Asked as to what bearing the investigation of New York Life affairs would have on his business, he states that he was present at New York for five days during the hearing. He thinks that we out West here are not getting the true reports of this investigation. That the reports sent out save too much of yellow journalism, and that after this hearing the public will have a better conception of the benefits of life insurance than all the agents in the United States could explain to them in years.

Royal Hotel, under new management.

FRANCE AND U. S. CLASH

Troublous Condition of Venezuelan Affairs Invited By President to Confer Regarding Strike

Washington, Oct. 2.—Venezuela and her troublous conditions are now subject of earnest consideration by the Washington and Paris governments. Just from Paris, with full instructions, M. Jusserand, the French ambassador, called at the State Department today and was in conference with Secretary Root for half an hour. Venezuela was the main subject under discussion. Special attention was given to President Castro. Today's conference is the first of a series on the subject, and was of a preliminary nature. At its conclusion the announcement was made that the Venezuelan situation had not entered on the "emphatically critical" stage. No course of action was agreed upon today, and none was proposed.

ALAMEDA'S ENGINE ROOM

Filled With Water, and Is Flooded Between Decks.

San Francisco, Oct. 2.—The steamer Alameda's engine room is filled with water, and she is flooded between decks. Expert divers have discovered that the vessel's plates have to be torn away in many places, and that it will be impossible for the pumps to overcome the inflow of water. It is the opinion of experts who have examined the wreck that the Alameda will go to pieces in a short time.

San Francisco, Oct. 2.—The stranded steamer Alameda is on the rocks at Fort Point and it is not believed she can be saved. The cargo is being discharged by means of lighters.

A SONORA DEV. CO.

Arthur Houle, formerly of C. & A. Company, is Supt. of Veta Grande.

H. L. Coombs, chief clerk of the Veta Grande Dev. Co., an eastern company working a mining property in Sonora located ten miles from the town of Bacochi, is a recent arrival in the city, and intends to start on Wednesday for the return trip to the mine. Mr. Coombs was formerly a resident of Bisbee, and was at one time chief clerk of the Higgins Dev. Co. under Supt. Parnall.

RICH DOS CABEZAS DISTRICT.

Advices received here from Dos Cabezas are to the effect that there is considerable activity in mining circles in that section. The strike made recently by Thompson, Gardner and Grimes is very promising. There is a 14-inch lead on the surface which is widening with depth, and maintaining values in gold and silver at from \$300 to \$500 per ton. They are working diligently to open up their property, and refuse to bend to parties who desire an option.

Mr. Pete Tehaney, of Cananea, left for home last evening after a short visit among friends.

Douglas Editor Visits California—Geo. H. Kelly, editor of the Douglas International-American, departed yesterday for California, accompanied by Mrs. Kelly, where he will spend a vacation of two weeks.

Miners & Merchants New Safe.

Yesterday a new bank safe was installed in the vault of the Miners & Merchants Bank. This safe is the latest and improved make, and has a thickness of five inches of pressed steel.

A Giot Editor Visits Bisbee—R. H. Rose, associate editor of the Globe Silver Belt, visited in Bisbee Saturday and returned to Globe on the evening train. Under the able direction of Messrs. Hammill and Rose the Belt continues to be the best weekly paper in Arizona.

New Furnace in Commission—Superintendent Walter Douglas returned from Douglas last evening, and reports the new furnace for the Copper Queen company, which was put in commission on Saturday, as working satisfactorily and handling three hundred tons of ore per day.

J. F. Crowley shipped 5000 feet of lumber to Johnson. It went forward by team, and consisted of building timber, shingles, windows and doors. The purchaser was H. J. Clifford, and it is believed the old Peabody mine will receive some attention.—Wilcox News.
